

Cable Modification/ Repair Pricing

General Instructions:

Look over this price sheet to figure your price for the modification you need. Pricing is also provided for persons who did not buy directly from Morrow Audio, which therefore do not qualify for our lifetime warranty.

In some cases, it might be cheaper and better to use our trade up program instead of getting a modification. You will then benefit on the price as well as the enjoyment of a higher model in the line.

We recommend contacting us to verify the charges. You will then be instructed to mail the cable(s) to us, along with a check to cover the cost of the modification and the shipping back to you.

Ship them to:

CABLE MODS
Morrow Audio
6608 Dixie Highway
Florence, KY 41042

Speaker Cable Re-termination on standard ends:

Add shipping to the below prices. "Standard end" means a cable end that has two legs. "Per Cable End" means either the amp end or speaker end of the cable.

WE DO NOT offer service to change a standard cable to bi-wired, or vise-versa.

WE DO NOT modify lengths or chop cables in half to create two or more cables.
