

# Phono Cable Capacitance/ Meter

---

Magnetic cartridges are the only cartridges that might be affected by cable capacitance. With moving coil cartridges, cable capacitance is not a concern. Please use the information below when determining the phono preamp settings for magnetic cartridges.

PH1: 98pf per meter

PH2: 196pf per meter

PH3: 294pf per meter

PH4: 392pf per meter

PH5: 490pf per meter

PH6: 588pf per meter

PH7: 784pf per meter

Elite: 980pf per meter
